

## CONSENT OF THE GOVERNED.

How It Is Done in the State of Virginia  
Ballot a Riddle.

Washington Correspondence of the  
Globe-Democrat.

Each member of Congress has received a facsimile copy of the official ballot furnished voters in the Ninth district of Virginia. Not since the almost forgotten days of the "tissue" paper used in the reconstruction period has there been anything so well calculated to deceive. The same kind of type is used throughout. Punctuation is in part omitted. The ticket bears no resemblance to the forms known in Northern States. Names and offices are "run in" line after line, without any division. There are no column rules. At first glance the sheet is apparently a confused mass of names and numbers. After some study it can be made out that the Republican electoral ticket occupies one-half of the first column, and the Bryan electors the other half. Then comes the Debs electoral ticket at the head of the second column, and immediately after it the Democratic nominee for Congress. The Social Labor electoral nominees follow, and then at the top of the third column is the Wharton Barker Populist ticket. About the middle of the last column the ballot runs like this:

for Tenth district  
for representative of  
the ninth congressional  
district of Virginia  
in the Fifty-seventh  
Congress of the  
United States  
James A. Walker  
for President of  
the United States  
John G. Wooley

Then follows the Prohibition electoral ticket, completing this astonishing ballot. The whole sheet is a confusing jumble, without paragraphs or spaces to separate the several tickets, and with the Republican nominee for Congress hidden where his name might be overlooked. This exhibit of Southern election methods is bound to be heard from in the next Congress. Walker succeeded Stonewall Jackson in command of that famous brigade. He was a Confederate officer who made a record for bravery. Some years ago he became a Republican, and was elected to Congress from the Southwest Virginia district. Two years ago he was apparently defeated upon the face of the returns, and when he contested he was shot and desperately wounded. This year he ran again, and such devices as this ballot illustrates were employed to defeat him.

In a letter to members of Congress accompanying the sample ballot Gen. Walker writes: "I ask as a favor that you take the time to examine it critically. Under the Virginia law, the official ballot is prepared by the electoral board in secrecy, in compliance with provision of the law which makes it a penal offense to disclose the form, size or contents thereof," so that the voter is kept in total darkness until he goes into the booth to prepare his ballot. He is allowed only two and one-half minutes to prepare his ballot, and this compels nine-tenths of the voters to call on the Democratic judges designated to assist the voter in preparing his ballot, which he, the voter, is not permitted to show to any person after it is prepared, under severe penalties. In view of these facts it need create no surprise that while Virginia is Republican by 30,000 majority, she is counted Democratic by 30,000 or 40,000, and

that while the Ninth congressional district gave the Republican national ticket about 2,500 majority, the Republican candidate for Congress was counted out by 1,700, a difference of 4,200 votes. The election officials could afford to give the national ticket a fair vote in the Ninth district, because there was no danger of the electoral vote of the State being lost to Bryan and Stevenson, while it was well known that the Republican candidate for Congress would be elected if he was given the votes intended for him."

### HENDERSON GLEANER

Sized Up Hopkins County Mining Situation About Right.

From the Henderson Gleaner of Sunday, November 25.  
"President Mitchell, of the United Mine workers of America and under officials—if the Gleaner is correctly informed—are proceeding along a line that will bring more trouble than has ever been anticipated by them. The people of Hopkins county are wedged to the great mining interests of the county, and whether right or wrong stand ready at a blowing of a horn or the firing of a gun to appear armed and equipped for any trouble that may come up. They have been tried and never found wanting and any interference with what they consider the companies' rights or the wishes of the miners becomes a personal matter with them and they stand ready to resent. One thousand men if necessary will respond promptly to a call from Earlinton or Madisonville in defense of the mines or miners. President Mitchell will find an entirely different element to contend with in Hopkins county from that confronting him in the anthracite country of Pennsylvania last month. If the Madisonville and Earlinton miners are satisfied and decline going out on a strike President Mitchell will pursue the proper course by withholding any further molestation of their liberty. As sure as there is an attempt to have armed marching clubs moving over the highways of the county or the streets of Madisonville and Earlinton there is going to be trouble and much of it. The Mayor of the two towns and the sheriff of the county have announced publicly that they will have none of it and the Gleaner is mistaken in its estimate of these officials if serious trouble does not follow the attempt. Any effort to force the miners into a strike will not be tolerated and any attempt in that direction will be the merest foolhardiness.

It appears that the miners and operators have been getting along happily and harmoniously together that the miners are satisfied and do not desire the interference of the mine workers, on the other hand it appears that the object of President Mitchell is to force the operators to agree to terms they do not look upon with favor and terms not desired or required by the two thousand or more men in their employ. There is no telling what is to come of it, it all hinges upon the action of the miners. If they go out on a strike Monday that will settle it. If they refuse and an effort is made to force them, look out for trouble, for in the latter case the male population of Hopkins and much of it from adjoining counties will be found standing shoulder to shoulder with the mine operators. It is to say the least an ugly and decidedly dangerous complication.

## A MINER'S VIEW.

Crabtree Miner Writes About Mine Workers and Agitators.

### NO COMFORT FOR THE DISTURBERS

Isley, Ky., Dec. 3, 1900.—Mr. Editor: Please give me a small space in your paper to tell what we think of the United Mine Workers.

We find in Jim Wood's great speech where he says we are not getting but 70 cents per ton for mining coal in Hopkins county. We want to tell Woods that is like everything else he has told. Let him come to Crabtree, and he will find that he has told something that everybody knows is not so. He and his force seem to take a great interest in the welfare of the miners of Hopkins county. We are able to run our business without the United Mine Workers or Woods either. We want to choose our guardian if we need one. The miners of Hopkins county have never dug coal at two cents, and the operators have never wanted us to, but the organized men have. That is all the trouble that has been in the county for years, and we don't want any of Woods kind in the county, for they will not

THE HUGE BANQUET IN PARIS.

Paris, as everybody knows, is famous for large and annual doings. She kept up her reputation in the recent banquet tendered by President Loubet to the mayors of all the cities and towns in France. There were present at the banquet 2,000 chief executives of French towns. They ranged in age from 20 to 200 and in get-up from the styles of Noah's time to the latest Parisian fashions. All France reared the affair a grand and glorious success, and President Loubet, who has received many evidences of French disapproval since he returned the previous evening, because of the bareness of the president's part in the banquet. The illustration shows the superintendent of the banquet traveling through the immense dining hall in an automobile directing the preparations for the colossal spread.

tell the truth, and will work for less wages than anybody, and for that reason we don't want them in the county. We are getting 75 cents per ton for our coal and get all we dig, and don't need any check weigher, for by the time we paid him and then paid our dues and all the assessments, and five cents off of every dollar we made, we would not have any money. We would soon look like the Boxtown strikers, with the tag of distress sticking out of the seat of our breeches, and living on half rations.

It is time for the good people to fear such men as these and get the county rid of them at once. The men at Crabtree will not work among them, and Jim Woods will have to tell the truth and go to work, for we will not give him anything. He wants the miners of Hopkins county to turn their families outdoors. We will not do that. We think more of our families than we do of Jim Woods. We have heard the wind blow long ago. We are making good wages, and do not want to be bothered, for we are too busy to waste any time with such cattle as that gang of rascals.

### A MINER.

Henry Deane, who came from Evansville, Ind., has been here, and in Evansville, Ind.

## SEPARATE COACH LAW.

United States Supreme Court Affirms the Kentucky Courts.

Washington, Dec. 3.—The Kentucky State law requiring railroad companies in that State to provide separate coaches for colored passengers was made the subject of an opinion in the United States Supreme Court today, the case being that of the Chesapeake & Ohio Railroad Company vs. the State of Kentucky. It came to this court from the Kentucky court of Appeals. The opinion was handed down by Justice Brown, and the Kentucky court's judgment in favor of the State was affirmed. Justice Brown stated that in this case the railroad company had attacked the statute on the ground that it was unconstitutional, and that it was an interference with interstate commerce. Without replying specifically to this objection the Justice said there is a sufficient compliance with the law if a separate coach for local colored passengers is attached to the train while passing through the State.

The Court of Appeals of Kentucky had itself, he said, relieved this court of the necessity of passing upon the question as to

whether the law required a separate coach for interstate passengers of color.

Justice Harlan dissented, stating his opinion to be that the law is an interference with interstate commerce, and also taking the position that the Kentucky Legislature has no right to classify citizens by color in railway coaches.

### BETTER TIME

To Be Made Over the Louisville, Henderson & St. Louis Railroad.

The Louisville, Henderson & St. Louis railway placed new mail coaches on its entire system yesterday in order that better time may be made by all through trains.

Beginning with Sunday, this road will put a new time card into effect on its through trains, which will considerably lessen the running time between Louisville and St. Louis. While the changes have not been decided upon yet, it is probable that the morning train will leave Louisville at 8:10, twenty-five minutes later than heretofore, and the evening train will reach that city about 7:10 instead of 7:45.

Knowledge without justice ought not to be used to the advantage of the few.

## SHOCKING SUICIDE.

Mrs. Ed. White, near Hopkinsville, Cut Her Throat.

Clarksville, Tenn., Dec. 3.—Mrs. Ed. White, aged twenty-five years, committed suicide tonight by cutting her throat with a razor at Oak Grove farm, eight miles out on the Hopkinsville pike. She was a refined and highly educated lady. Ill health and a mortgage sale of her husband's property today caused her to do so. She died this morning at 2:30 o'clock. She was Miss Flora Withers, formerly a beautiful Union county belle, the daughter of a well-known minister.

### Catholics Favor Holding Philippines.

The Rev. William D. McKinnon, a priest of California, who has been made a chaplain in the United States army by President McKinley, has written a letter to another Catholic army chaplain, in which he deals at some length with the situation in the Philippines from a Roman Catholic standpoint.

Father McKinnon does not hesitate to defend the administration from the attacks upon it by some other Catholics in this country, who have charged that it has acted in the Philippines in antagonism to the church's interests. The priest declares Archbishop Chapelle, the apostolic delegate to the Philippines, and the Archbishop of Manila share his views.

The Rev. E. J. Vattman, the Catholic chaplain at Fort Sheridan, Ill., to whom the letter was written, has just made it public. Father McKinnon says in part:

"You ask me what would be the future of the church there, provided that there were a change in the administration. In conversation with the Archbishop of Manila one day I asked him what he thought would be the effect on religion if the Americans were to withdraw and leave the islands to the Filipinos. He threw up his hands and said he dreaded to even contemplate such a catastrophe, and he believed the only hope for religion in the archipelago was for America to retain possession there. I might add that more than once I heard Archbishop Chapelle, the apostolic delegate, express the same opinion.

"In the first session of Aguinaldo's Congress they passed a law confiscating all church property and expelling all priests. Not only that, but they showed by their actions they meant to enforce this law, as they imprisoned every priest they could get their hands on. We succeeded in releasing from their hands over 400 of these unfortunates. All were worked in chain gangs on the road, having on their backs placards bearing the most insulting inscriptions."

### Sermon to Deaf Mutes.

A unique sermon was preached by Rev. A. W. Mann at St. Paul's Church, Cincinnati, last Sunday evening to a congregation of deaf mutes. It was the occasion of the twenty-fifth anniversary of the founding of St. Mark's Deaf Mute Mission, of which Rev. Mr. Mack is the founder.

To those fortunate enough to be possessed of all their faculties the sermon made a deep impression, as it was evident that Rev. Mr. Mann was touching upon the subjects of the most vital importance.

## THREATENED WITH GUN

Tom Clemons, a Union Miner, Wants to Shoot Sanford Morris, a Working Miner.

Difficulty Happened at Hamby Station—Warrant for Clemons' Arrest.

There is a warrant out for the arrest of Tom Clemons for flourishing a gun and threatening to shoot Sanford Morris, a thrifty colored miner employed at Carbondale. Tom lost his job last spring by undertaking to help take charge of the business of the Carbondale Coal Company. He is brother-in-law to Tom Cates, whose brief visit to Lakeside Park last 4th of July is remembered here, and who was said then to have undertaken to organize St. Charles and Crabtree. It seems that Morris went to Hamby Station to trade and spend his money. He was approached by Clemons who attempted to "argify" in favor of the United Mine Workers. It is said that Morris held up his end of the argument so well that Clemons became enraged and jerked a shot gun out of the hands of another man, flourished it around and threatened to shoot Morris, calling him vile names. Others who stood by prevented any shooting and Morris had a warrant sworn out Tuesday for the arrest of Clemons. Hamby Station or "Boxtown" has become so unpleasant that the miners employed nearby are some of them afraid to go there to trade and business there is said to be dull in consequence.

### MASONIC TEMPLE

Inside Framing of the Opera House Part Nearing Completion.

The new Masonic Temple and Opera House is being pushed along at a good rate now. The frame work on the inside for the balcony is about complete, and brick laying for the second story walls will begin perhaps tomorrow.

The Opera House is so arranged that it can be made very attractive and comfortable by interior decoration and seating. The stage is quite commodious and can accommodate scenery for any entertainment that is on the road for cities of Earlinton's size. The building itself will be an imposing one and a credit to the town.

The secret orders of the town are looking forward with pleasure to the completion of the commodious and convenient rooms which will occupy the second floor.

A meeting of the stockholders will be held in a few days to complete the organization of the stock company and make final arrangements as to directory and officials of the Masonic Temple Company.

### AGITATOR JAILED.

Was Drunk and Disorderly at Carbondale—Arrested for Breach of the Peace.

Hamp McIntosh, who lives in Providence, took it into his head that he ought to do mission work at Carbondale for the United Mine Workers. Into his stomach a quantity of red wine was poured at Carbondale Monday night to agitate him, and he did not want to be so agitated, so he was arrested and taken to jail.

## DAWSON TO BE ADDED.

Cumberland Telephone Company Will Put Dawson on Earlington Exchange.

### PRINCETON AND OTHER TOWNS REACHED.

In an interview with George Neal, manager for the Cumberland Telephone Co.'s local exchange of Earlington and Madisonville, THE BEE learned that important additions are to be made soon to these exchanges. The wires of that company have been brought into Dawson Springs from Princeton, connecting with Marion and other West Kentucky towns, and will be extended to Paducah. From Dawson Springs the lines will be brought through to Earlington and connected with the local exchange and handled by the Earlington operator. This will extend the free service which is now enjoyed by subscribers to the local exchanges here and at Madisonville, to cover Dawson Springs, as well as give direct connection to Princeton and other points in the end of the State. A number of new subscribers have also been added at Earlington and Madisonville, the list now reaching more than three hundred.

### A REMARKABLE CONVENTION.

Despite the Weather, the Young Men's Christian Association Convention Was a Success.

#### MR. EDITOR:

Your readers who are interested in the welfare of Hopkins county will rejoice to know the second annual convention for the Young Men's Christian Association work in the county, held at Hanson, Nov. 29-30, was a decided success. Notwithstanding the continuous downpour of rain from the first session to the last, the program was carried out in the most satisfactory manner and the attendance was good. Among the speakers from a distance were Messrs. C. C. Stoll, of Louisville, and Geo. H. Cox, of Owensboro, members of the State Executive Meeting; Henry E. Rosewater and John Lake, Secretaries of the State Executive Committee; C. R. Boucher, General Secretary at Owensboro; T. B. Latham, County Secretary of Muhlenberg County; and Max Weir, a prominent association worker at Greenville. Among the speakers residing in the county were Secretary Howard Caldwell, Messrs. B. R. Ashby, T. C. O'Bryan and R. M. Hall.

The following delegates went from Madisonville, besides visitors: Howard Caldwell, R. M. Hall, J. W. Wells, W. T. Mills, John Arnold, Will Patterson, Will Gordon, Chester Slaton, Cliff Slaton, T. C. O'Bryan, B. R. Ashby. Of course there would have been a much larger attendance but for the unfavorable conditions mentioned. The report of the year's work which was sent by Chairman Bailey was very favorably received and the Convention recommended the continuance of the work during the coming year, including the employment of a County Secretary for his entire time. The following members of the County Executive Committee, to serve for the ensuing year, were elected: I. Bailey, J. W. Wells, J. G. H. Hall, B. R. Ashby, R. M. Hall, Ben Plain, P. M. Moore, R. B. Bourland, W. J. Lamb, W. H. Weir, J. S. Waller, and G. F. Brown.

Besides the business sessions on Friday and Saturday morning, afternoon and night, the following meetings were held on Sunday: One for men only at 9:30 in the morning, with an attendance of 23; one for men only in the afternoon, with an attendance of 40, at which there were five requests for prayer and one decision for Christ; a meeting for ladies, with an attendance of 40, at which the work of the Association was presented; and a meeting for boys under fifteen with an attendance of fifteen. Different delegates spoke in the various Sunday schools, and the pastors and members of the Christian churches gave the 11 o'clock service over to visiting delegates, and at night a union service was held in the Methodist Church, which was well attended, and was very impressive.

Altogether, the Convention was a decided success and it is believed a new life has been infused into the workers, and that during the year a splendid work will be done. The spiritual, intellectual and general improvement of the people of Hopkins County.

patent judges to be one of the finest sermons ever preached in Nebo.

Elder J. F. Story filled his regular appointment at the Christian church Saturday and Sunday.

The Holiness people will begin a meeting at the C. P. church in a short time.

Drummers have been selling immense quantities of holiday goods to our merchants.

Postmaster Durham, who fell from a scaffold and broke his neck, back and both legs, besides dislocating both hips, has almost recovered.

Sam Townsend, of Vandersburg, has moved to his farm near Nebo.

Our streets have been in a fearful condition, but the sunshine of the past few days has improved them somewhat.

Dr. Tifford's new house is about completed.

D. C. Morrow's new store room will soon be ready for business.

Jas. Durham has moved to his new dwelling.

We understand that Noah Day will move to the house recently vacated by Mr. Darlian.

Several of our people who killed their hogs during the recent cold snap, have lost their meat.

A. E. Hill, of Mantion, visited in Nebo Sunday.

Sam Langley, of Madisonville, was in Nebo Sunday, the guest of his father.

John W. Bone, formerly of Nebo, but now of Madisonville, is visiting his daughter, Mrs. Willie Cox.

Cris Hoffman and wife spent Thanksgiving in Madisonville.

Cris said when he came back that he was as full as a tick—he looked that way.

C. D. Mitchell, who is preparing to move to Muhlenberg County, is detained on account of high waters.

At a recent meeting of our loaves' club, it was resolved that those who did not have pipes should procure them—the stronger and mustier the better, and when a customer comes in, especially a lady, that they be surrounded, and the room filled with smoke as speedily as possible, and should make them sick, that is their misfortune. "True some think it impolite to smoke in a store or other public places, but that is all they know about politeness—besides it pleases the proprietor to have his house filled with smoke, and if ladies do not like it, let them do their trading and get out." ROBERTS.

New Druggist.

Henry Drews, who has entered the drug business in Earlington, will have his new store in the Robinson block ready for a formal opening in a day or two. Mr. Drews is a graduate of the St. Louis College of Pharmacy and comes to Earlington well recommended. He promises a full announcement to the readers of THE BEE in the next issue. Mr. Drews was resident of Evansville, Ind., for a number of years.

## DOWN IN THE MINES.

The United Mine Workers chief object so far as the strike ordered by them in this and adjoining counties seems to be to read or to read the outside reader as to the true state of affairs.

Last week when five of the men at work at the Seebree mine came out in sympathy with the agitators had the reputation circulated through the press that the miners of that place were out and that they had gained a victory.

The truth is the miners at work there are well satisfied, with no cause of complaint and plenty of work. Even the presence of the colored agitator Campbell, and of Puckett, who have long ago ceased to be laborers either in or out of the mine, has no effect on them.

The mine operators treat them kindly and pay them well and regularly and therefore no discontent exists. In fact it is and should be hard work at good wages. But there is a reason for practicing this deception. The money they live off of and carry on their nefarious work with comes from the pockets of the mine workers throughout the United States.

And to encourage them to be kept down in their pockets and support the large army of agitators in the field such rays or falsehoods must be spread broadcast. By this means thousands of dollars are being taken away from the innocent miners in other States.

Men who desire to work at good wages are plentiful as far as making plain last week when six of the Oak-Hill miners who had become too closely associated with the agitators, quit work and eight others applied at once for their places.

When miners desire to labor evil influences have no effect on them. The promise of free soap or half rations is no inducement to the man who loves his family better than he does the fellow who talks for money.

They take the word of the operator who comes forward with the cash, rather than to who makes false promises.

To the man who learns by observation it seems as if the St. Bernard Company were either increasing their force or the men were working harder than ever as last week at the mines big work was done. One day No. 1 broke all records of the past two years by the increased amount of coal mined.

F. B. Harris, of South Diamond, says his men are standing in line to get work. He says that no outside interference will be tolerated. So it is with all the St. Bernard miners. The miners here have plenty of work at good wages and they are in no hurry to be approached by the meddlers.

A quieter town than Earlington cannot be found anywhere, yet the men who come here to interfere in any way with our contented people find that this is not a desirable place for them to locate. Our workmen don't want outsiders to dictate to them what they shall do when both work and money is plentiful.

The farmers of this county must readily see that it is to their interest when possible to turn a deaf ear to the U. M. W. Steady work and good pay is a blessing to a farmer as well as to a coal miner. They are the grain and vegetable producers and a good market is well needed and what they always have as long as the miners prosper for no class of laborers live better than the miner when his purse will permit. Destroy their property and the coal producer and away the farmers' market goes.

Most of the miners here worked on Thanksgiving day as the demand for coal required it. They are a faithful class of laborers who take into consideration the interests of the operator and the public as well as their own.

Not a mine was idle in Hopkins county last Saturday. Not the U. M. W. said they had four tied up. They must have meant some country mine where they work a force of one man to the mine and who generally takes Saturday off.

The threats and intimidations of the idlers at Barney had no effect on the men on guard there consisting of Messrs. Toombs and Lester and even they failed to keep up their songs of derision when they were informed their supply of cheap fuel would be cut off if they persisted in their abuse.

The Princeton Chronicle, as below quoted, spoke to the effect that Hopkins county trouble with the U. M. W. yet there is no evidence of the truth of the statement here made that the operators who work union men have any interest in the "For several days past the United Mine Workers of America have been working hard attempting to get the miners of Hopkins county to join the U. M. W. and the outcome is that the miners are out of the mine."

tion to the order and continued at work, which they had a perfect right to do if the wages they were receiving suited them.

It is said that the operators of Hopkins county pay good wages and that they and their men get along nicely without any assistance from the union, and that they want no interference from that source. As to the truth of this we do not know, but we do know that the encouragement the miners received to come out on the strike was from union miners in other towns and from union operators who expected to profit by the strike in the increased price of coal and that the \$30,000 per cent. that the miners were to receive in case the strike in Hopkins county was brought about, as they could then get more for their coal and pay better wages. We do not doubt the honesty and sincerity of the union or the non-union miners, but it does seem that the union operators are acting rather dirty and working only for their own selfish interests—not caring what becomes of Hopkins county's miners nor how much the poor people of this country shall be compelled to pay for their coal in the bad winter coming."

The St. Bernard Coal Co. believe in the non-abiding at it they practice what they preach, therefore it is quite natural that they should see that their men are protected in the right to labor without being molested.

Thousands of dollars were paid to the employees of the St. Bernard Coal Co. last week. Of course this is a heart-breaking fact to the U. M. W., who would like to see them poorly paid and poorly fed so that their needs of discord they are trying to sow among them would have some effect.

It is pleasing to note that not only the city officials but the sheriff as well has taken steps to protect the business and the miners in pursuing their labor against the false doctrines advocated by the U. M. W.

## WHY MRS. PINKHAM

Is Able to Help Sick Women When Doctors Fail.

How gladly would men fly to woman's aid did they but understand a woman's feelings, trials, sensibilities, and peculiar organic disturbances.

Those things are known only to women, and the aid a woman would give is not at his command.

To treat a case properly it is necessary to know all about it, and full information, many times, cannot be given by a woman to her family physician.

Mrs. G. H. Chappell, whose portraits we publish, advises suffering women to seek Mrs. Pinkham's advice and use Lydia E. Pinkham's Vegetable Compound, as they cured her of inflammation of the ovaries and womb; also, therefore, speaks from knowledge, and her experience ought to give others confidence. Mrs. Pinkham's address is Lynn, Mass., and her advice is absolutely free.

## WITHOUT INTERRUPTION.

Mines of Hopkins County Run With Full Force Daily.

SAY NOTHING AND—LOAD COAL.

New Men Seeking Work Turned Away at the Monarch Mines.

As has been the case every day this week the mines of Hopkins county run with full force yesterday and loaded their full average of coal, except Oak Hill mines, where trouble with waters inside prevented the loading of coal. Men were at work there, however, as many of them as could be used, to get rid of the water.

The St. Bernard mines loaded up or above the average daily run. Crabtree, Carbondale and Belnecke each did quite up to an average day. Monarch, which is the only mine in the county at which newspaper correspondents have claimed to find any men who quit to join the union, did an extraordinary big day's work and turned away several who applied for work. Not one of the mines in Hopkins county has ever been shut down or has ever been crippled for a single day by the efforts of the agitators of the United Mine Workers, or by any action in sympathy with the order on the part of the miners employed.

Outside Hopkins county Sebe and Empire are running as usual and Providence has run every day but with a small force this week.

FINED \$21.80.

Hamp McIntosh Who Tried to Make Carbondale Men Join the Union.

The trial of Hamp McIntosh, who got drunk and tried to make the men at Carbondale subscribe to union principles, was held at Madisonville yesterday. He was tried before a jury and the total of his fine is \$21.80. Jim Woods was in court with the accused, and the trial was a "seeing that McIntosh got a fair trial." The latter is now in jail serving out the fine.

**Criticizing Bible History.**  
It is right to use judgment as to the historical facts as set down in the Bible merely because as yet they do not coincide with history, so far as authenticated evidence. We think not. It is the same story as with the too ready acceptance as actual facts of the conclusions of Bible critics. Presently the result has been that these mere opinions have had to be altered within several years to meet the views of other scholars or newly discovered facts. All this is in such a state of flux that it were well on mooted points to suspend judgment. Many conservative scholars are now at fault with such a conclusion to put down as definite facts and conclusions what are merely inferences. Some day these scholars will have to answer for their work—Jewish Exponent.

## Hacking

There is nothing so bad for a cough as coughing. It tears the tender membrane of the throat and lungs, and the wounds thus made attract the germs of consumption. Stop your cough by using the family remedy that has been curing all coughs and colds of every kind for over sixty years. You can't afford to be without it.

## Ayer's Pectoral

loosens the grasp of your cough. The congestion of the throat and lungs is removed; all inflammation is subdued; and the cough drops away.

Three sizes: the one dollar size is the cheapest to keep on hand; the 50c. size for coughs you have had for a long time; the 25c. size for an ordinary cold.

"For 15 years I had a very bad cough. The doctor gave me all kinds of things, but it only made it worse. I bought Ayer's Pectoral and it was just what I needed. It cured my cough and I feel like a new man."—J. C. AYER, Lowell, Mass.

## FROM EUROPE TO AFRICA.

Scheme for the Construction of a Tunnel Under the Straits of Gibraltar.

PROPOSED LENGTH TWENTY-FIVE MILES.

The Cost, with the Connecting Line Between Spain and Algeria is Estimated at \$15,000,000, and the Time Required for Construction Seven Years.

Washington, Dec. 2.—The state department has received a report conveying further information as to the proposed tunnel from Europe to Africa under the Straits of Gibraltar, from Sir George H. Murphy, consul general at Magdeburg, Germany. Mr. Murphy, the French engineer who has submitted the proposal of the project to the governments of Spain and Morocco, is said to have presented the project in a feasible manner, holding that it presents no greater obstacles than were encountered in the building of the tunnels of Mont Genet and St. Gotthard.

**The Ventilation Problem.**  
On the other hand, Mr. Murphy states that the ventilation problem of a submarine tunnel, and removal of the constantly accumulating water, are very formidable, and expensive obstacles to be dealt with. Nevertheless, he believes that, by a secret process of his own, he can grapple with these difficulties and keep the cost of the work at a figure not exceeding that required in the enterprises at St. Gotthard and Arlberg, or Simplon. By working simultaneously from both ends of the tunnel he believes the date of completion could be safely be placed at 1907.

**Length of the Tunnel.**  
The proposed length of the tunnel is 25 miles, 20 miles of this under the sea. Railway connection in Europe is planned, by means of a line following the Spanish coast and passing through Tarifa and Algeiras into France. In Morocco a line would be constructed from Tangier, connecting with the railroad system at Tlemcen. The entire cost of the tunnel alone is approximately at over \$25,000,000, and of the entire connecting line between Spain and Algeria at about \$32,000,000.

**Unfavorable French Criticism.**  
The French press is in criticism, he professes unfavorable on the ground that Mr. Murphy has overestimated the earning power of the road, and that it seems hardly credible that the passenger and freight traffic between France and Algeria could be diverted to this indirect and expensive route.

## ORDERS TO CONSUL GUMMERE.

To Proceed to the Capital of Morocco to Press the Claims of the United States.

Washington, Dec. 2.—The state department has issued instructions to United States Consul Gummere, of Tangier, Morocco, to proceed to the capital of that country as far as possible, and to press the claims of the United States for indemnity on account of the murder of Marcus Engdahl, a naturalized American citizen, who was killed in June, 1900. The warship, which probably will be the Kentucky, recalled, from Smyrna for that purpose, will convey the consul from Tangier to Fez, which is the nearest port to Morocco, the capital of Morocco.

## A DIPLOMATIC TRIUMPH.

Secretary Hay Secures Treaty with Nicaragua and Understanding With Colombia.

Washington, Dec. 2.—Secretary Hay has secured a distinct diplomatic triumph in the treaty with Nicaragua, signed yesterday. It grants the United States the exclusive right to construct, operate and police a canal between the Atlantic and Pacific oceans. The concession was obtained at the same time that an understanding has been reached with the United States of Colombia covering like rights and privileges for the Panama route.

## Contract for a Cruiser.

Constantinople, Dec. 3.—Hassan Pasha, Ottoman minister of marine, and Gen. Walmis, representing the Cramp Ship Building Co. of Philadelphia, have signed a contract for the construction of a cruiser for the Ottoman navy. The price to be paid is \$350,000, which includes \$25,000 in indemnity to the United States for losses sustained by Americans during the Armenian massacres.

## Thirty Coal Barges Sunk.

Huntington, W. Va., Dec. 3.—The steamers Tom Dodsword and Volunteer, both Pittsburgh towboats, collided 20 miles above here yesterday morning. Almost thirty coal barges, containing 600,000 bushels of coal, sank. The loss is \$100,000.

## To Occupy Subic and Olongapo.

Washington, Dec. 3.—The navy department has been informed that the gunboat Mann has left Cavite with a detachment of marines for the occupation of Subic Bay, Olongapo, which have been transferred to the control of the department.

## New Fraternal Beneficial Society.

Akron, O., Dec. 4.—Congressman Charles Dick has been elected president of a new national fraternal beneficial society known as the Chivaliers, which will have headquarters in Akron.

## MESSAGE IN A NUTSHELL.

President McKinley's Annual Message to Congress Summarized for Easy Readers.

The president, in his annual message to congress, outlines the history of our treatment of the Chinese problem. We seek integrity of the land under present rule, free trade in every province and guaranteed safety. We have ratified an extradition with the Argentine government. Belgium wants us to sign a convention to regulate the liquor trade in Africa.

We have made a postal agreement with Bolivia and a treaty of extradition with Brazil.

Brazil and Bolivia are settling their boundary disputes. Brazil's protection policy lays a heavy hand on our export trade. Urgent representations have been made. Colombia's insurrection has been suppressed. An explanation with the Argentine government.

An American engineer has run the boundary line between Costa Rica and Nicaragua.

American won most of the prizes at Paris, and much of the good will. Germany is readmitting American life insurance companies.

Samoa is peaceful. American meat trade in Germany is practically nil. Friendly relations with Great Britain continue, though no explanation of the seizure of American ships in Portuguese South African waters has been made.

Alaskan frontier line disputes show the necessity for prompt establishment of a permanent frontier line. American claims have been paid.

Italy is still displeased that no punishment has followed the lynching of five Italians at Toluca, La. The president urges the passage of a bill giving the federal government charge of the prosecution of cases involving international questions.

The president reiterates his observations on the awful crime of lynching.

Francis A. A. and Well advised are to be returned to the Mexican government.

Seventeen powers have signed. The Hague peace convention. American arbitration commissioners have been appointed.

Nicaragua has paid back taxes collected by the second time from American merchants at Bluefields, who had already paid the temporary insurgent government.

Japan and the Chinese war and the settlement thereof is commented on fully.

Nicaragua is willing to take up the discussion of the canal treaty, having disposed of all former franchisees.

Spain has consented to return the rest of the Philippine Islands for \$100,000. A commercial treaty is favored. Buffalo's Latin-American exposition, the president thinks, will help our South American trade.

New banks have been started and the bank note circulation increased \$77,889,570 under the new financial act. Exports and imports for the first time in the history of the country exceeded two billions.

The president recommends that the war tax be decreased \$200,000, and that the decrease be taken from the inheritance tax.

The bad trusts are referred to as obstructing navigation by river and canal. Government in form similar to that of the United States is recommended for the Philippines, natives to fill minor offices, unclassified tribes to continue tribal relations as wards of the general government.

Porto Rico's new legislature will assemble in December. Cuba's constitutional convention is now in session. McKinley wants a government cable to Manila by way of Hawaii.

The president asks for a standing army of 100,000 men. Sixty thousand will be needed in the Philippines. Rural mail delivery is growing from 391 routes to 3,244 in 44 states. Before the current year closes there will be 4,000 routes, all paying expenses.

Armor plate contracts have been made at a reduced rate, so the president says a national armor plate factory is not needed.

Four million dollars were paid for public lands last year. The widows' pension bill increased the pension roll from \$3,000,000 to \$4,000,000.

Hawaii's census shows 41.2 per cent. growth. The president calls attention to the eight-hour law and the principle of arbitration, both of which have been lost sight of in congress.

The centennial of the sent of government at Washington will be celebrated December 12.

The surplus this year was \$40,000,000. In our great prosperity we must guard against the danger it incites to extravagance in government expenditures and appropriations, the president says.

## The Ship Subsidy Bill is Adopted.

The ship subsidy bill is adopted.

## SMALLPOX AMONG INDIANS.

Outbreak of the Red Pest at Odanah, Wis.

Washington, Dec. 2.—Indiana Agent Campbell, of the LaPointe agency in Wisconsin, has reported to the commissioner of Indian Affairs that smallpox has broken out at Odanah, among the Bad River Indians. He says their condition is serious and the outbreak is spreading. Commissioner Jones has expressed his authority to the Indian agent.

## SETTLING BUSINESS.

Three Constitutions Offered in the Cuban Convention in Session at Havana.

THEY WILL ALL BE DISCUSSED LATER.

A General Educational Scheme Submitted—Senor Guiberto Gomez' Motion to Discuss Gen. Wood's Address at the Opening of the Convention Defeated.

Havana, Dec. 3.—The Cuban constitutional convention resumed its sittings, yesterday, with an air of business. The first thing done was to discuss, overwhelmingly, the motion of Senor Guiberto Gomez, who had proposed that Gen. Wood's address at the opening of the convention should be discussed.

Three complete constitutions were submitted by Gen. Rivera, Senor Quesada and the colored general, coron, respectively. These will be the subject of the next session of the convention, which will discuss them later.

Gen. Rivera's proposed constitution provides for a president, a senate, a house of representatives, a governor for each of the six provinces, a legislative body for each province and for native Cuban candidates for senators for every 30,000 inhabitants, with election by popular vote. His scheme calls, also, for the election of three electors in each municipal district, whose duty it shall be to elect a legislative body of 11 for the province in which they reside. This legislative body shall elect the mayor and four members of the senate. Finally, the six legislatures shall meet and choose the president, who must be a native Cuban. Candidates for senatorial honors must have incomes of at least \$1,000 a year.

Sen. Rivera's idea is to have the voters, in the central government, a d d the convention virtually pledged itself to one state government at yesterday's secret session.

Senor Quesada's proposal would centralize the government in a president, senate and house of representatives elected by the people, suffrage being restricted to educational qualifications.

Gen. Gomez offered for approval the constitution of the United States, with the exception of anyone who fought in the war might be chosen president. His proposal leaves the question of an army and navy to be decided by congress.

Senor Zayas offered a clause providing that a judicial body higher than the supreme court should be elected by popular vote and providing that any official removed from office should have the right of appeal to this body.

Sen. Quesada submitted a general educational scheme.

## ST. LOUIS WORLD'S FAIR BILL.

It is On the Calendar of the House and Yet to be Considered in Committee of the Whole.

Washington, Dec. 5.—The bill providing for the federal government's participation in the St. Louis World's Fair of 1904 is on the calendar of the house, and yet to be considered in committee of the whole. It was reported by the special committee May 28 last.

The government has promised to assist the fair by the expenditure of \$5,000,000 over \$10,000,000 shall have been expended by the fair, and so forth, is covered in the bill reported by the Tawney committee, and which has not yet passed either house of congress.

## WILL FOLLOW THE MONEY.

Recipients of Cash Stolen from the Newport Bank to be Made to Disgorge.

Newport, Ky., Dec. 5.—The United States grand jury is engaged in taking testimony in the case of Frank M. Brown, late assistant cashier of the German National Bank of Newport, who is charged with embezzling \$191,000 of the bank's funds. Among the witnesses summoned are some known to have knowledge of Brown's losses of money at pool rooms and other places. Receiver Tucker is authority to sign the statements of the government will undertake to follow money lost and spent by Brown, and recover it from the persons who benefited by it, which is a matter of money belonging to the bank.

## To Investigate Haining.

Washington, Dec. 5.—Mr. Driggs (N. Y.) introduced a resolution in the house requesting the secretary of war to investigate the practice of "haining" of Oscar J. Boaz, formerly a cadet at the academy from the Seventh district of Pennsylvania, who died Monday.

## A Double Tragedy.

Clushing, Okla., Dec. 5.—Five miles east of here Robert Patrick was shot dead by Samuel Keel, while endeavoring to step between Keel and quarreling his relatives. It is said that the double tragedy was shot through the shoulder and seriously wounded by Sam Tyson, who escaped. Patrick's father, who was 80 years old, died on learning of his son's death. Apprehended.

## SUFFERED TWENTY-FIVE YEARS.

Cured Permanently by the American Catarrh Remedy, Pe-ru-na.

Mr. John O. Atkinson, Independence, Mo., in a recent letter to Dr. Hartman, writes: "My wife had been suffering from a complication of diseases for 25 years."

"Her case had baffled the skill of some of the most noted physicians. One of her worst troubles was chronic constipation of several years' standing. She also suffered with general debility and prostrations—sometimes as often as six or eight times a day. At this time she was passing through that most critical period in the life of woman—change of life."

"In June, 1886, I wrote to you about her case. You advised a course of Pe-ru-na and Man-in, which we at once commenced, and have to say it has completely cured her. She firmly believes that she would have been dead only for these wonderful remedies."

"About the same time I wrote you about my own case of catarrh, which was of 25 years' standing, and at times I was almost past going. I commenced using Pe-ru-na according to your instructions, and could not believe it would cure me in a year, and it has completely cured me."

"I have to say that your remedies do all you claim for them, and ever more. Catarrh cannot exist where Pe-ru-na is taken according to directions. Man-in is a most wonderful medicine for chronic constipation."

Mr. A. F. Stern, Marine City, Mich., writes: "I was troubled with catarrh for three years, and the evening of my life was almost ruined. I heard of your Pe-ru-na, and I bought a bottle. I used it according to directions, and I am now well. I feel like a new man. I recommend it to all who are suffering with this dreadful disease. It is the best medicine for catarrh. I owe my health to you."

Mrs. J. A. Bashor, Knoxville, Tenn., writes: "My health was completely broken down and had been for many years. I could not rest day or night, but suffered constantly until misery. Tried remedy after remedy, but found a relief only Pe-ru-na was found."

By aid of Dr. Hartman's free books and free correspondence a multitude of hopeless people are permanently cured of this most loathsome and stubborn disease every year. Anyone afflicted with catarrh should write Dr. Hartman, Columbus, O. Ask for free books of free advice, whichever you may need.

Mr. J. W. Draper, Gainesboro, Tenn., writes: "For many years I had been a continual sufferer from that dreaded disease, chronic catarrh. I gave up hopes of ever being relieved. I tried every remedy my friends recommended, but all in vain. Finally I took Mr. J. W. Draper's advice, believing me to be in the last stages of consumption. Having a bottle of Pe-ru-na in the room, I began to take it, and in a few days felt so well that I got up. I continued it, improving all the time, until I am now almost a sound man. Can do as hard a day's work as almost any man. This happened four years ago."

Mr. Rachel A. Magaw, of West Jefferson street, Springfield, O., writes: "Your Pe-ru-na is worth its weight in gold. I feel like a new woman. I can't praise it enough. I spent a great deal of money on doctors, but nothing ever did me any good until I sent to you and tried your Pe-ru-na. I now feel well of the catarrh, but I shall never be without Pe-ru-na, and shall tell it to try to try, for I know it to be a sure cure for catarrh. I can't praise it enough for what it has done for me."

Mr. T. A. F. Stern, Marine City, Mich., writes: "I was troubled with catarrh for three years, and the evening of my life was almost ruined. I heard of your Pe-ru-na, and I bought a bottle. I used it according to directions, and I am now well. I feel like a new man. I recommend it to all who are suffering with this dreadful disease. It is the best medicine for catarrh. I owe my health to you."

Telephone No. 1-2.

THURSDAY, DECEMBER 6, 1900.

We heartily endorse the proposition to keep in the city of Louisville permanent headquarters open for the state organization of Republican party. There is nothing like eternal vigilance.

ANNOUNCEMENTS for jailer and other county offices, which the Hopkins County Democrats want next year, are coming thick and fast. The Bee suggests that the jail be divided several times to accommodate the many applicants.

The Louisville Commercial is doing better since the return to its staff of Col. Walter Forrester as managing editor. Col. Forrester knows a newspaper when he sees one and with the necessary facilities he can make the Commercial the newspaper it ought to be.

TWENTY-EIGHT hundred and eight Filipinos have surrendered to Gen. Samuel B. M. Young at Santa Maria, and the oath of allegiance was administered by the padre at the church with impressive ceremonies. These Filipinos had heard that their friend Bryan was defeated.

Some of the things said about Hopkins county miners and operators in the special dispatches to certain daily papers are too tall tales and despicable to notice. These fabrications have no effect on the intelligent people of the county but convey false impressions to people at a distance. It is vexing to any good citizen to see facts with reference to his section lied about daily but such vicious misrepresentation must react upon its perpetrators.

The Sioux City Journal has discovered some hope for the future of Kentucky in the result of the recent "call" for a strike among the thrifty and prosperous miners of Hopkins county. It says:

"Kentucky certainly is a queer old State. When the president of the United Mine Workers ordered a strike the miners in Hopkins county mines carried their full dinner pails to work with them as usual the next day. They were unreasonable enough to insist that they were well satisfied with their conditions, and saw no reason for striking. With such a precedent established it is possible that the walking delegate may find himself under the painful necessity of having to go to work one of these days."

## Col. Lige Schreer.

The Louisville Commercial has this to say about the man who sacrificed his candidacy for Congress in the second district for the "good of his party":

If Kentucky is to be divided into two judicial districts, Col. Lige Schreer would make an admirable district attorney. He has borne the brunt of many hard battles with the political enemy in his end of the State, leading hopeless battles so that the party organization might be maintained. In the Legislature he has been a stalwart.

Long service in the State, unquestioned capacity and

THE DUKE OF MANCHESTER.

William Angus Dreppel, whose marriage to Miss Helena Zimmerman, the Cincinnati heiress, made one of the late seasons in London, is the sixth Duke of Manchester. The duke is 23 years of age and he is expected to have traveled at a pretty swift pace for the past five or six years. His mother was Countess Tenny, of Harnsworth, La.

eral judicial districts, and Ex-senator William Henry Jones, who recently retired from the Congressional race for the good of his party in the Third, is said to be after the new United States Marshalship. Doctor James will retain his office as marshal.

Upon the proposition to keep permanent headquarters in Louisville for the Republican State Organization, Ex-state Treasurer Long is quoted as saying: "I consider it imperative that we should not close our headquarters. There is to be a fight next year, and while it is largely local in character, we should have a place always open for the receiving and distributing of political information. It is the only way to prevent an organization from falling to pieces between campaigns."

Among those mentioned for the new Federal Judgeship, in case Kentucky is given another Federal district, are Judge Tinsley, of Barbourville, and Judge Cochran, of Maysville.

It is not believed there is anything in the talk of an attempted contest of the election of Hon. E. C. O'Rear to the Court of Appeals on account of alleged irregularities. And it seems certain that nothing can be made by Democrats who would contest out of the alleged redistricting of that district which has already been declared void by the Court of Appeals.

It is reported that Dr. Williams, Republican candidate for Congress in the Eighth district, will contest the seat of Geo. Gilbert on the ground that he was defeated by unlawful gerrymander.

## Total Loss Defined.

Frankfort, Ky., Dec. 4.—The Court of Appeals today, in affirming the case of the Palatine and Merchants Insurance Companies vs. Carrie Weiss, etc., from Louisville, in defining the meaning of the term, total loss, say:

"It is not necessary that all parts and materials composing the building should be absolutely and physically destroyed, but the inquiry always is, does the building after the fire still exist, or has it become so broken and disintegrated that it can not be designated as the structure which was insured. There may be a total loss even though some parts of the building remain standing after the fire."

Judge Burnan delivered the opinion.

## Lead and Zinc.

Marion, Ky., Dec. 4.—The quality of lead and zinc ore taken from the mines here has aroused inquiry from foreign markets, apparently existing that it will be affected by taxation. Lead, zinc and

**Claimed Everything.**  
The Democrats claimed the German vote, and lost it; they claimed the farmer vote, and lost it; they claimed the labor vote and lost it; in fact, they have had to quit-claim about everything they had on hand at the beginning of the campaign.—Globe Democrat.

## BLOOD POISON CURED BY B. B. B.

**Bottle Free to Sufferers.**  
Deep-seated, obstinate cases, the kind that have resisted doctors, hot springs and patent medicine treatment, quickly yield to B. B. B. (Bottled Blood Balm), thoroughly tested for thirty years. Have you eruptions in the mouth? Sore Throat? Eruptions? Eczema? Sores? Bone Pains? Itching Skin? Swollen Glands? Stiff Joints? Copper Colored Spots? Chancres? Ulcers? Eruptions on the body? Hair and eyebrows fall out? Is the skin a mass of boils, pimples and sores? Then this wonderful B. B. B. specific will completely change the whole body into a clean perfect condition, free from eruptions, and skin smooth with the glow of perfect health. B. B. B. drains the poison out of the system so the systems cannot return. At the same time B. B. B. builds up the broken down constitution and improves the digestion. So sufferers may test B. B. B. in a trial bottle will be given away free of charge.

B. B. B. for sale by druggists at \$1 per large bottle, or 6 large bottles (full treatment) \$5. Complete directions with each bottle. For trial bottle, address BLOOD BALM CO., Atlanta, Ga. Describe trouble and free medical advice given.

It is expected that the Earlington Home Dramatic Company will give their first entertainment, for the benefit of the new Masonic Temple Opera House sometime before the first of the year, possibly during the holidays.

## \$1000 Worth of Good.

A. H. Thurness, of Wells Creek Company, Buffalo, O., writes: "I have been afflicted with kidney and bladder trouble for years, passing gravel or stones with excruciating pain, and no medicine could give relief. After taking Foley's Kidney Cure the result was surprising. A few doses started the brick dust, fine stones, etc., and now I have no pain across my kidneys and I feel like a new man. Foley's Kidney Cure has done me \$1000 worth of good. Take no substitute. John N. Taylor."

The losses by the fire at Fulton, Ky., include the postal receipts for November, aggregating \$2,600 and about \$1,200 worth of stamps. The contents of other safes were also lost.

## Dr. Otto's Spruce Gum Balsam.

A physician can prescribe Dr. Otto's Spruce Gum Balsam. The formula is on the package. Cures your Cough in a day. Very pleasant to take. Children cry for it. Large size bottles. Price 50c and 60c. For sale by St. Bernard Drug Dispensary. For a Beautiful Complexion, Take Dr. Carlstedt's German Liver Powder.

The population of Texas increases 36.3 per cent since 1880; that of Montana 84.1 per cent.

**Lady Correspondent Wanted.**  
I want to hear from any lady who has Stomach Trouble. I will recommend Dr. Caldwell's Syrup Pepsin and guarantee it to cure. Yours truly, St. Bernard Drug Dispensary.

Labor leaders are beginning to arrive in Louisville for the annual convention of the American Federation of Labor, which convenes there next Thursday for a ten days' session.

**Dr. Bull's**

## MADISONVILLE MILITIA

Will Go to the Inaugural Ceremonies at Frankfort.

The Madisonville company, Kentucky State Guards, has been ordered to report at Frankfort, December 11, to take part in the inaugural ceremonies. The company has a complete new equipment of guns, uniforms, etc., and will appear in fine feather. The boys are drilling now every night.

## Does it Pay to Buy Cheap.

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible, if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boesche's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration gives a good night's rest, and cures the patient. Try one bottle. Re-commended many years by all druggists in the world. For sale by dealers in all civilized countries.

"The new!" wrote the schoolboy, "is a harder bird than the guse or the turkey. It has two legs to walk with, two more to kick with and it wears its wings on the side of its head. It is stubbornly backward about going forward."

**New Songs Not Catchy?**  
**New Play Too Droll?**

**New Opera Too Long?**  
Why, what on earth ails you? Is it indigestion? Get a bottle of Dr. Caldwell's Syrup Pepsin. It keeps one straight in the year around. They it at St. Bernard Drugstore.

Genl. John B. Castleman has refused to run for Mayor of Louisville.

## Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for Indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stay fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower. In liquid form, to make you satisfied there is nothing serious the matter with you. For sale by St. Bernard drug store.

One coat of tar and feathers will last a man a lifetime.

## The Best Plaster.

A piece of flannel dampened with Chamberlain's Pain Balm and bound to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest, give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Pain Balm also cures rheumatism. One application gives relief. For sale by St. Bernard Drugstore, Earlinton; Ben T. Robinson, Morton; Gap; George King, St. Charles.

## Coal Due.

Louisville, Ky., Dec. 3.—The big shipment of coal that left Pittsburg last week is due here today, and when all of the black diamonds is unloaded nearly 10,000,000 bushels will be on hand.

**F. V. ZIMMER,**  
Attorney-at-Law,  
MADISONVILLE, KY.

Will practice in the Courts of Hopkins and adjoining counties.

## FINE WORK!

For Fine Watch Work, Clock Work and Jewelry Repairing, call on

## LOCAL NEWS.

Mrs. Geo. F. Hooser has been ill for the past week, but at last was improving.

Rev. C. S. Jupp, of the M. E. Church, is conducting a series of meetings at his church in this city.

J. W. Iglehart is now with the clerical force of J. M. Victory & Co., and will remain during the busy season.

John Fagan and Miss Minnie Davenport were united in marriage one day last week. They will reside in Earlington.

The Carbons Club was entertained last Thursday evening by the Misses Norwood. Quite a large number were present, among the visitors being Misses Hunt, Earleight and Waller, of Hopkinsville.

The Literary Committee of the Epworth League has arranged to have its first monthly meeting next Monday evening at the home of Mrs. W. B. Wise. All the members of the League are requested to be present.

The Christian Endeavor prayer-meeting was held last Sunday evening by Master Grover Long. An interesting program was rendered and a large crowd was in attendance. Miss Lucy Crenshaw is the leader for next Sunday.

W. M. Larkin gave a prohibition lecture at the Christian church last Sunday night. Prof. J. Karl Taylor is now with him and has charge of the singing. Quite a number were out to hear them. They left Monday afternoon for Crofton.

Elder S. J. Phillips, of Missouri, will preach at the Christian church, in this city, Sunday, December 11, morning and evening. He comes with the probability of accepting the call to the pastorate to the church at this place, and all are invited to hear him.

The pupils of the Hecla Public School, assisted by their teacher, Miss Frances Young, gave quite a pleasing entertainment at the school house on the night of Thanksgiving. After the entertainment, followed a box social, the proceeds of which were for the benefit of the school.

Henry C. Bourland, was appointed at the regular meeting of the city council Monday night, to fill out the unexpired term of councilman J. W. Day, deceased. The appointment holds until November election. This honor could not have been more worthily conferred and must meet the general approbation of the people of Earlington.

## PERSONAL.

Mrs. Hamilton O'Brien was in Nashville shopping Saturday.

Miss Cornelia Hester, of Madisonville, visited friends at Hecla one night last week.

Jim Cromwell, of Henderson, visited friends in the city Sunday afternoon.

Miss Bertie Toombs, of Slaughter, visited relatives here Saturday and Sunday.

Miss Dora Witherspoon, of Madisonville, visited friends here Sunday.

Misses Lola and Virda Hall, of Seebree, visited Mrs. Frank Sweeney here this week.

Miss Maude Edmonson visited friends in Seebree a few days last week.

W. T. Mills and sister, Miss Emma, of Madisonville spent Sunday afternoon with friends in the city.

Mrs. T. R. Browning and daughter, Mabel, visited friends in Hopkinsville a few days this week.

Misses Dora Wood, Lizzie Huff, Frankie and Effie Stokes were in Madisonville shopping Friday.

W. A. Keown is visiting relatives in Woodville.

Master Doris Shaver, of Crofton, is visiting his grandparents here.

Mr. and Mrs. P. J. Herb returned last Thursday from their bridal trip to St. Louis and other points.

E. G. McLeod, of Madisonville, spent Sunday here.

Misses Hanna, of Madisonville, spent Thursday night with friends here and attended the ball.

Misses Nellie Harris and Bertie Adcock, of Madisonville, spent Thanksgiving with Mrs. J. R. Peyton.

Miss Nell Carlin spent Thanksgiving with her parents in Henderson county.

Miss Lella Dean attended the Alf Taylor lecture in Madisonville Thursday night.

Mrs. Dorris, sister of Mrs. J. O'Connor, was called to the bedside of her little niece, Mary, who was very low with the fever, but who is now improving.

## BAKING POWDER

ABSOLUTELY PURE

Makes the food more delicious and wholesome

ROYAL BAKING POWDER CO., NEW YORK.

**Leslie Combs Improving.**  
Pension Agent Leslie Combs, who has been ill at his home on Brook street for a week, was considerably improved this morning. His physician believes he is out of danger. In fact, he was able to leave his bed today and expects to be out tomorrow if possible. His illness is the result of a cold which Mr. Combs caught on a fishing trip—Evening Post.

**Catarh Cannot be Cured**  
with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a blood or constitutional disease, and in order to cure you must take internal remedies. Hall's Catarh Cure is taken internally, and acts directly on what produces such wonderful results in curing Catarh. Hall's Catarh Cure is a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarh. Send for testimonials, free.

F. J. CHERRY & Co., Props., Sold by druggists, price 75c. Hall's Family Pills are the best.

**Duty Succeeds Yonts.**  
Frankfort, Ky., Dec. 4.—The Election Commission got down to business when it first met at 10 o'clock this morning and elected C. H. Duty of Mr. Sterling to the vacancy on the board, and elected Allen Smith, of Louisville, secretary.

**His Life Was Saved.**  
Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die. I was then told of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now I am well and strong. I can't say too much in its praise. This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular size 50 cents and 25c. Trial bottles free at St. Bernard Drug Store; every bottle guaranteed.

**Ask Further Time.**  
Frankfort, Ky., Dec. 4.—In the Caleb Powers case Judge Denny, of Lexington, asked till December 15 file a brief for Powers. The motion will be passed on tomorrow.

**No Right to Ugliness.**  
The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly, and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strength, builds up the system, and cures every skin, blood and nerve ailment. It will make a good-looking, charming woman of a run-down, ugly creature. Only 50 cents at St. Bernard Drug Store.

**Birth.**  
Born, to Mr. and Mrs. W. O. Toy, December 1, a fine boy.  
Born, to Mr. and Mrs. W. P. Savan, on Saturday morning, December 1, a fine boy.

**Volcanic Eruptions**  
Are grand, but skin eruptions rob life of joy. Bucklen's Arnica Salve, cures them; also Old Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chilblains. Best Pile Cure on earth. Try out Pains and Aches. Only 25c. a box. Cure guaranteed. Sold by St. Bernard Drug Store.

**Mr. Will McGary, who has been very ill at the home of his parents in this city, with Bright's disease, was last Thursday moved to the sanatorium at Henderson for treatment. The sick man was accompanied by his wife, a trained nurse and his brother, C. H. McGary. Mr. McGary has many friends here who wish him a speedy recovery.**

**A Powder Mill Explosion**  
Removes everything in sight; so do drastic internal pills, but both are mighty dangerous. Don't dynamite the delicate machinery of your body with calomel, creosote or other pills, when Dr. King's New Life Pills, which are gentle as a summer breeze, will cure you of Headache, Constipation. Only 25c at St. Bernard Drug Store.

Men love to hear of their power, but have an extreme dislike to be told their duty.—Burke.

Money to patent good idea may be secured by our aid. Address, THE PATENT RECORD, Baltimore, Md.

**Grapevine Items.**  
Miss Texie McNair, of Dalton, visited here last week.

Misses Rosalie Hamner and Alice Melton, of Madisonville, visited Miss Mayme Todd Sunday.

Mrs. J. B. Lindle and children, of Hecla, visited at Elder J. F. Story's Sunday.

Mrs. J. F. Story is visiting at Nebo this week.

H. N. Stinnett will locate at the Monarch mines soon, where he has a position with the coal company.

Esquire Jagoe and Add Fugate are doing some contract work on the road near William Riggs's.

Thomas Wilson had the misfortune to get one of his fingers torn off while holding a young mule the other day.

R. P. Henry sold his farm last week to James Veazy, lately returned from the Philippine Islands. Price paid was \$3,800. It will be occupied by Mr. Veazy's father.

R. P. Henry has bought the property on East Center street, in Madisonville, owned by C. S. Royster and is moving to it.

A. E. Whitfield and wife attended Prof. Hendricks' singing at Manitou Sunday.

**How to Cure Croup.**  
Mr. R. Gray, who lives near America, Duchesne county, N. Y., says: "Chamberlain's Cough Remedy is the best medicine I have ever used. It is a fine children's remedy for croup and never fails to cure." When given as soon as the child becomes hoarse, or even after the croupy cough has developed, it will prevent the attack. This should be borne in mind and a bottle of the Cough Remedy kept at hand ready for instant use as soon as the symptoms appear. For sale by St. Bernard Drugstore, Earlington; Ben T. Robinson, Morriston Gap; Geo. King, St. Charles.

**All I ask you is to call and see my line of Boots and Shoes.**  
If you are looking for a good thing you will buy at J. W. Pritchett's Madisonville. Next door to Morton's bank.

At a sale of thoroughbreds at Lexington Monday fifty-four head were sold bringing \$17,350. The highest price for a single horse was \$2,950.

**Maudie R. Adams, of Dayton, O., Writes:**  
Gentlemen:—The requirements of the last society season, with late hours, pronounced eating and irregular habits left me a physical wreck. Sick Headaches, Indigestion and a sluggish condition of the organs were my daily torment until I tried Dr. Caldwell's Syrup Pepsin. Yours truly a grateful remedy.

**MAUDIE R. ADAMS.**  
Sold by St. Bernard Drugstore.

**Etay Notice.**  
Taken up as an estray by Robert Hart, living near Cave Run School House in Hopkins County on the 1st, instant, one white steer about two years old, marked crop and underbit in left ear and having no brands or other marks, and which is appraised by F. P. Fox at the value of \$8.00.

Witness my hand this 18th day of Nov., 1901.  
F. B. SISK, J. P. H. C.

**Don't fail to see J. W. Pritchett's line of shoes when in Madisonville.** He can save your money.

Col. Smith, of the Third Kentucky regiment is said to have criticized the mustering out of the First Regiment by Gov. Bechman.

**Most in Quantity, Best in Quality.**  
Morley's Sarsaparilla and Iron is a tonic, a blood purifier and a blood maker. It does not stop with merely curing certain diseases, like scrofula, sora, abscesses, etc., but cleanses and builds up the whole system. All who have tried it say there is more cure in one bottle of Morley's Sarsaparilla and Iron than in six of any other kind. Sold by John X. Taylor.

Only he who lives a life of his own can help the lives of other men.—Phillips Brooks.

**For Hoarseness.**  
Ben Ingerson, of Hutton, Ind., says he had not spoken a word above a whisper for months, and one bottle of Foley's Honey and Tar restored his voice. It is used largely by speakers and singers. Take no substitutes. John X. Taylor.

It is said that the burned district at Fulton will be rebuilt at once.

**Madisonville.** The way

Alaska travelers say that the mosquitoes there have driven men to suicide.

## FURS! FURS!

Just opened a great assortment of Cellarettes, Boas, Muffs, Scarfs, etc., shipped from one of the greatest manufacturers of the North. We have made arrangements enabling us to handle this consignment of Fur Garments, manufactured by the Great Fur Garment Manufacturer, Newton Annis, of Detroit, Mich., who claims to be the greatest Fur Garment Manufacturer in the world, carrying, he says, anything in the Fur Line from a Cheap Trimming at ninety cents a dozen yards, to Fine Sealskins, at \$5,000 a garment. This collection of Furs he allows us to sell from for two weeks, and at the end of that time we have the privilege of returning all unsold garments. This deal (as you at once see) places us in great position for making extremely low prices, as we run no risk.

Every Woman and Girl in Hopkins County Needing a Wrap Should Take Advantage of This Opportunity of a Lifetime. Remember the Place.

## FARM &amp; GARDEN

## NEW SPRAYING DEVICE.

(Compressed Air Power Does Excellent Work With Horsepower Mixture.)

A new wrinkle in spraying with horse-drawn mixture is the use of compressed air, which a Pennsylvania farmer describes in Rural New Yorker as follows: The first cut shows the manner of charging the air tanks, while the second shows the machine in operation. The rig is perhaps a little expensive, but it does the work fast—just as fast as you wish to do the hard work is a thing of the past. The entire outfit consists of a two-horsepower gasoline engine, an air compressor mounted on a one-horse wagon and two wheeled carts carrying the air and mixture tanks. Each cart is supposed to carry two tanks of 50 to 100 gallons each. The photo shows three tanks. I have intended to use a small tank for air

CHARGE AIR TANKS BY MACHINERY, and have the initial pressure 200 pounds, but in practice I found it better to have more air space and lower pressure, so I added another tank. The two tanks are connected together by one-quarter inch gas pipe and shut off valve. Each tank has a steam gauge to show at all times the pressure inside it. One tank has a hose connection with common union coupling to attach it to air compressor. The other tank has a large pipe connected at bottom. This pipe turns up behind the tank and is mitered with a large valve—refilling valve. Near the turn of the large pipe is a tee connection having attached two lines of hose, as shown in the picture. Of course more lines can be attached, but I thought best. The energy is stored before commencing work, so the number of nozzles used has no bearing on the quality of the work done.

The carts are very simple affairs, homemade; two thills with three cross-pieces all bolted together, with the tanks strap bolted to the middle of the first picture shows how the engine and air pump are mounted on a heavy one-horse wagon so as to be easily moved to any point where it is most convenient to water to fill spray tank. Operation is as follows: One cart is backed up to the compressor, as shown in first picture. The hose is connected (about ten seconds' work) and engine started. The operator then takes a large wooden pail or tub with a short piece of pipe in bottom that fits the refilling valve, opens a little relief valve at top of spray tank and pours the mixture in. By the time the operator gets the mixture tank full the engine has got up a pressure of 125 pounds in the air tank and is ready to begin operations.

The machine is now a definite force, disconnected from the compressor and driven to orchard. When ready to throw spray, the valve in small pipe connecting air to mixture tank is opened a little. In two or three seconds the gauge on mixture tank will show 50 or 60 pounds pressure. This is about the right pressure to throw a dense fog of spray. As long as nozzles are in use the little valve is left open slightly so that the pressure in the spray tank is constant at 50 or 60 pounds. When nozzles are shut off for a minute or two or longer, it is closed so pressure will not go high.

Now as to cost. For my purpose, all things considered, a gasoline engine seemed to be best. It cost \$105, is two-horsepower, weighs about 150 pounds. The barrel shown is half full of water, connected by pipes with water jacket of engine cylinder. The can upon the frame is the gasoline supply. I heat

## FALL CANKERWORM.

Its Life History and the Methods in Vague Pest Fighting.

Very destructive insects are the cankerworms. Though easy to conquer if properly treated, the annual loss due to their depredations is very considerable, and it would seem that many persons have yet to learn the methods of fighting this old time pest. There are two species of cankerworms more or less common wherever apples are raised, the fall cankerworm and the spring cankerworm. The fall worm is perhaps the more common, and is a small, brooded insect, which lays its eggs early in the autumn or early in spring. The egg hatches out a small larva that grows to the length of nearly an inch. It varies greatly in color, but is usually gray or almost black, striped with yellowish or greenish. Being a measuring worm, it has less than the ordinary number of legs, six true legs near the head and four false legs near the posterior extremity, with an extra rudimentary pair on the fifth abdominal segment. When full grown, it descends to the ground and usually buries itself sometimes several inches beneath the surface. Here it forms a cell by turning round and round and changes to the pupal stage. Late in the fall, from the middle of October to the time when the ground becomes frozen, the adults emerge and lay their eggs on the branches of the trees. Many of the moths do not emerge in the fall, but remain in the ground till spring. When adult, the two sexes differ greatly in appearance. The male is a pretty moth, with ash gray front wings marked by three transverse darker lines and hind wings of silvery gray. The female, on the other hand, is not provided with wings, but has to crawl wherever she goes. She is somewhat more robust than the male and ashen gray in color marked with black.

The fact that the female cankerworms are wingless and must creep from the ground to the branches of the trees in order to lay their eggs gives us an excellent means of fighting them. If we can head them off and prevent them from crawling up the trunks of the trees, the eggs cannot be deposited on the twigs, and no harm will result.

## FALL CANKERWORM.

A male, B female, C, D, E, structural details. 1, pupa of egg; 2, larva; 3, pupa of female; 4, pupa of male; 5, larva; 6, pupa of female; 7, pupa of male. To accomplish this end various devices have been tried, such as hanging the tree with paper and on this spreading printers' ink or catarrhal line or any thing sticky enough to prevent the caterpillars from crawling up. Perhaps the best band is made of cotton batting. A strip of this is wound around a tree trunk and fastened securely by a string at or below the spidre. The upper end is now turned down, forming a loose, fluffy mass, in which the insects get entangled and die. This method has one disadvantage. The bands have to be kept on from the last of October until spring is well advanced and must be renewed after rain or when the cotton loses its fluffy nature. As the worms feed upon apple, elm, cherry and some other trees precautions must be taken to keep them from breeding on these trees and again infesting the fruit trees.

The best method of overcoming these pests, however, is by spraying. The readily used a spray of one of the arsenicals (see chapter on insecticides), which should be applied early as soon as any worms are seen, even before blooming, but never during the period of bloom. It may be necessary to repeat the spraying, but this method is by far the cheapest and most satisfactory.

## Notes and News.

It has been particularly noted at the Rhode Island station that where a greater amount of nitrate of soda has been applied annually to grass land sown with clover, red top and timothy a far greater proportion of the crop consisted of timothy than where less of it was applied or than where it was omitted.

The heads but not the stems of sunflowers are made into silage.

In growing cotton in Bermuda the land is enriched with well rotted cow or pig manure. The seed is sown in September and the crop harvested from January to March. A system of inspection covers all shipments to the United States.

This country has come to be without a perfect insecticide for agricultural purposes. The most general of agricultural implements and machines both as to quality and number.

Under the recent act for the protection of game animals and birds among birds the most general prohibition is that against the shipment of quail. All but 12 of the states prohibit export of these birds. Among the exceptions are Texas, southern states, Montana and North Dakota, but in Montana the sale and in North Dakota the killing of quail are at present lawful.

The approaching Argentine wheat harvest, which begins with December, will be watched with great interest, as it figures largely in the world's trade. Present talk is that it will be the best but this is an uncertainty till actually harvested.

## LEGION MAY NOT BE OUT.

Question as to Whether Mustering Officer Henry Is of the Militia.

The Louisville Legion may not have been mustered out after all. Gen. D. R. Collier, formerly Adjutant General, says that Col. Jouett Henry, who was ordered by Mr. Beckham to mustering the Legion, was mustered out himself, and consequently is not an officer of the State Guard.

When the three Kentucky regiments went into the volunteer service in 1898, Gov. Bradley mustered out the First and Second regiments, retaining the Third in the State Guard in order to keep up Kentucky's quota and secure the government's annual appropriation. But after the return of the Third from Cuba the Governor mustered it out.

This, it is claimed, put Col. Henry out of the service and rendered his acts void in mustering out the Legion. If this is correct Mr. Beckham will have to have another ceremony before Col. Gray's regiment will be out—Evening Post.

## Look! A Stitch in Time

Saves nine. Hughes' Tonic now improved, tastes pleasant, taken in the early Spring and Fall prevents Chills, Dengue and Malarial Fevers. Acts on the liver and tones up the system. Better than Quinine. Guaranteed. Try it. At druggists, 50c and \$1.00 bottles.

Dr. Nourse, of Hopkinsville, will dedicate the Hecla Presbyterian church on Sunday, December 9, 1899, at 2:30 p. m. He will also hold services that evening at 7 o'clock. All are invited to attend.

Stops the Cough and Works Off the Cold. Laxative Bromo-Quinine Tablets cure a cold in one day. No cure, no pay. Price 25 cents.

The mother of our highly esteemed fellow citizen J. E. Fawcett, is visiting him and will remain several weeks. Her home is in Milan, Tenn.

## A TIMELY HINT.

You should be wise and see that your blood is clean and pure and your whole system put in perfectly healthy condition by the use of Dr. Caldwell's German Liver Powder. You will be free from malaria, typhoid fever, colds and all the ailments that attend impure blood. For your cold try Dr. Otto's Spruce Gum Balsam. Price 25c and 50c a Bottle.

For sale by St. Bernard Drug Store.

## Progress in the Philippines.

By this time it is known throughout the Philippines that the candidate for President who proposed to surrender the sovereignty of the islands has been defeated. The people of the United States have expressed their purpose to stand by the full obligations of the treaty with Spain. No further temporizing on this point can be advised by the Tagal leaders, the Hong Kong Junta or their emissaries in Paris and elsewhere. The purpose of the United States, approved in a general election, are now clearly defined. It is no surprise to hear that thousands of armed natives are coming in to take the oath of allegiance. They now know that the authority of the United States will be

and tend to impress the rebellious natives with the power and firm intentions of this country. Prospects of rapid pacification are excellent.

It is a significant fact that no prominent American observer in the Philippines believes that the natives are capable of conducting a government of their own or that they can soon reach the necessary qualifications. They are not a unit in race or language. A score of native dialects are spoken in Manila alone. Schools are opening under an American superintendent and are carried on at night for those who can not attend during the day. The Philippines never have been pacified in any stage of their history. Spanish occupation was confined to a few places. The savage element and the ladrones have never recognized the existence of law or of civilization. What the United States is doing, with as much of benevolent forbearance as is practicable, is to confer upon the islands the social order and enlightened advantages they have never known and could not know if left to themselves.—Globe Democrat.

## Hire Strayed

From my stable, on Railroad street, Monday night, November 26, one horse, black all over. No marks but lame in right fore foot. Suitable reward for recovery.

S. O. STEVENS, Earlinton, Ky.

## Fortune of War.

That portion of the message that deals with the Philippines is especially interesting. "The fortune of war," says the President, "has thrown upon this nation an unthought trust which should be unselfishly discharged, and developed upon this government a moral, as well as a material, responsibility toward these millions whom we have freed from an oppressive yoke." Nothing imperialistic in that utterance.—Globe Democrat.

## FEELS SANGUINE.

Mr. Boring expects to get Kentucky Judicial District Bill Through Congress.

Washington, D. C., Dec. 3.—Representative Boring expects to be able to get the bill dividing Kentucky into two judicial districts reported and passed this session. Representative Smith, of Kentucky, a member of the judiciary committee, promises his support.

## Maude R. Adams, of Dayton, O. Writes

Gentlemen:—The requirements of the last society season, while late hours, promiscuous eating and irregular habits left me a physical wreck. Sick headaches, indigestion and a sluggish condition of the organs were my daily torment until I tried Dr. Caldwell's Syrup Pepsin. Yours is truly a household remedy with us. Gratefully yours, MAUDE R. ADAMS. Sold by St. Bernard Drugstore.

## For Malaria, Chills and Fever

## THE BEST PRESCRIPTION IS Grove's Tasteless Chill Tonic.

The formula is plainly printed on every bottle—hence you know just what you are taking when you take Grove's. Imitators do not advertise their formula knowing that you would not buy their medicine if you knew what it contained. Grove's contains Iron and Quinine put up in correct proportions and is in a Tasteless form. The Iron acts as a tonic while the Quinine drives malaria out of the system. Any reliable druggist will tell you that Grove's is the Original and that all other so-called "Chill Tonics" are imitations. An analysis of Grove's will show that Grove's is superior to all other "Chill Tonics" and is not experimenting when you buy and expect

## COMPRESSED AIR OUTFIT IN THE FIELD.

The hot tube with charcoal. That is the stuff I have found that will not blow out on a windy day. The air compressor cost \$100. Engine runs 400 revolutions, size of pulley ten inch, belt three inch. With only 125 pounds maximum pressure and the fact that in changing the compressor stops no water jacket is really necessary, although I use a little water in the jacket. The tanks can be made of any manufacturer of soda water or bottles of "air tanks." They can be had in any size, a. A 50 to 200 pounds or more are not very heavy and cost last winter \$15 each for 50 gallon tanks. Every one knows what nozzles, hose and connections cost. The cost of the wheels and axle for the carts. The framework costs possibly \$5 for each.

## Copper and Cotton.

In an experiment at the Alabama experiment station, a plot of land planted in peas the year before produced at the rate of over 600 pounds of seed cotton per acre more than another plot planted in cotton the year before.
